

icoone®

Luxury Collection

i-Tech industries is the place where science meets beauty, where protocols suitable for every type of skin and need are studied and created, embracing both the aesthetic and medical world.

The experience gained both through a scientific approach and continuous clinical evaluation in the aesthetic and medical fields, has allowed i-Tech Industries to become a leader in the development of **skin treatment and body shaping** devices that offer effective solutions, improving the quality of life.

icoone®: the power of Microstimulation for the treatment of face and body. 100% **natural treatments that can be carried out every day, with no time limits.**

icoone® is the ideal solution for Wellness Spa, Med Spa and Day Spa, and it has been chosen by some of the world's most exclusive and luxurious Resorts and Hotels, to offer their clients an intensive experience of well-being, allowing to achieve faster results for **skin rejuvenating, body contouring** and **global health.**

JESSICA SUN – SPA DIRECTOR FOUR SEASONS GUANGZHOU

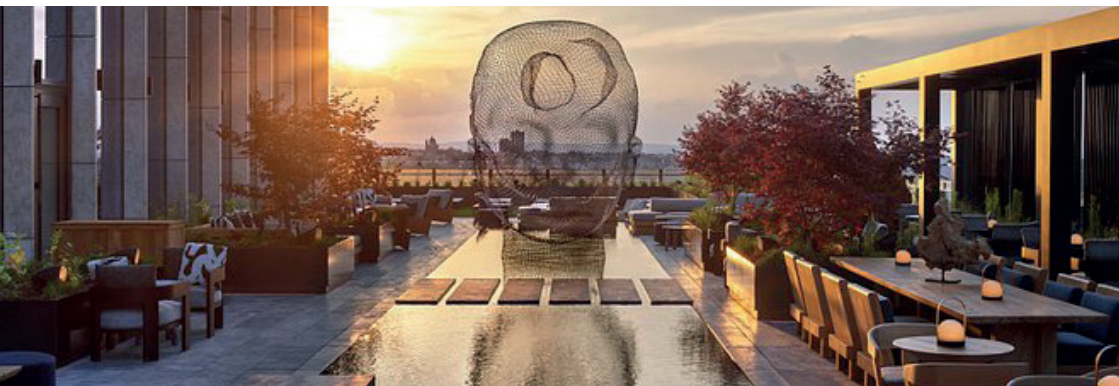

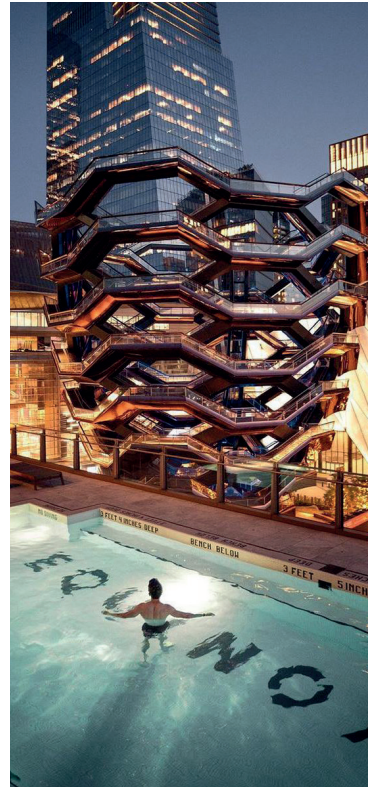

“With the continuous development of science and technology, as well as people’s awareness of health and beauty ever increasing the traditional spa products and services have had difficulty meeting the demand of the market. As a consequence, high tech beauty equipment has begun to enter the market and become a mainstream trend in the spa and beauty industry. When choosing beauty equipment, safety and comfort are primary considerations. Icoone has a patented technology which can deeply stimulate the connective tissue to achieve deep relaxation and improve state of sub-health.”
